

Digital technologies revolutionising the energy sector

Thursday 28 March

FootAnstey 

regen 
transforming energy

Agenda

14.30 **Welcome**

Kerry Hayes, project manager, Regen

14.40 [Drivers for revolutionising our data - facilitate competition, innovation and new business models in the energy sector](#)

Dr Jeff Hardy, senior research fellow, Grantham Institute - climate change and the environment, Imperial College London

15.00 **Case study examples of data revolutionising the sector**

[Low Carbon Technologies Detection project](#)

Gill Nowell, DSO lead, Electralink

[GridMAP energy storage optimisation solution](#)

Fraser Durham, commercial director, Argand Solutions

[Project CommUNITY peer-to-peer trading](#)

Anes Dallagi, smart energy systems manager, EDF Energy

Q&A

Harnessing and using data, panel discussion

Dinker Bhardwaj

Head of data policy and smart energy, Department for Business, Energy and Industrial Strategy

Department for
Business, Energy
& Industrial Strategy

Matt Watson

Innovation and low carbon networks engineer, Western Power Distribution

Chris Pritchett

Partner, Foot Anstey

Madeleine Greenhalgh

Policy and advocacy manager, Regen

Senior research fellow, Grantham Institute - climate change and the environment, Imperial College London

Regen Engagement

Our members help us to be a strong, informed and independent force for change.
Get plugged into the transformation of the whole energy system – join us and shape the future of sustainable energy.

Have influence

- Engage in our policy work, and contribute to consultation responses
- Set the agenda by joining our forums

Stay informed

- Regular policy and market insight updates
- Discount rates for our industry-leading events, e.g. Renewable Futures

Get connected

- Showcase your business with exhibition space and network at our events
- Share case studies for our publications

Standard annual membership fee is of £900 + VAT open to all.

Or, inquire about **discount (SME and Community)** and **tailored packages (Local Authority)**.

For a more focused membership, Regen now manages the **Electricity Storage Network**.

Regen Events

Future Energy Scenarios for Heat and Gas

Bristol – Early May

Subsidy Free Solar Developer Forum

Osborne Clarke, London – 30 May

Electricity Storage Network Annual Symposium

Osborne Clarke – 4 June

EV and Electricity System Forum – Fleets

Burges Salmon, London – 5 June

Solar Commission Launch

House of Lords, London – 9 July

Renewable Futures and Green Energy Awards

The Bath Assembly Rooms, Bath – 27 November

Thank you for coming
Please join us for networking in the foyer
