

Local Authority Forum

How can local authorities help enable the electric vehicle revolution?

14.00-15.30, 15 July 2021

Webinar agenda

This Regen forum will look at the role of local authorities in accelerating the electric vehicle (EV) revolution. How can local authorities become enablers and help deliver on the updated ambition from the government? What are the main barriers to local authority action and what can be learnt and applied from other cities and regions that are leading the EV revolution?

The webinar will hear from local authorities and leading players in the EV sector debating progress and examining the future for this growing opportunity.

14.00 Welcome and introductions

Poppy Maltby, head of cities and regions, Regen

14.10 Update on the government's work to support the transition to zero emission vehicles

Emily Sam, head of EV infrastructure strategy and consumers, Office for Zero Emission Vehicles, Department for Transport

14.25 Turning EV strategies into action

Tom Bray, carbon and energy projects officer, Durham County Council
Elizabeth Bohun, lead technologist EV integration, Oxfordshire County Council

14.50 Opportunities and support for local authorities

Richard Drew, regional account manager, Energy Saving Trust

15.00 Panel discussion: How can local authorities help enable the electric vehicle revolution?

Tom Bray, carbon and energy projects officer, Durham City Council
Elizabeth Bohun, lead technologist EV integration, Oxfordshire County Council
