

‘Energy efficiency in my community’ Community energy training session

20 May 2021

14.00-16.30

Agenda

This online workshop is for community energy practitioners, climate action groups and anyone in Northern Powergrid’s region who want to help improve the energy efficiency of homes and buildings in their community. With Northern Powergrid and Groundwork’s Green Doctors energy efficiency experts, we’ll explore measures that you can take in your community, and explain how you can go and deliver this work locally. You’ll get information on options for energy efficiency projects, training on delivering home energy advice and case studies from leading community energy groups carrying out this work, with experts on hand to answer questions.

14.00 Welcome and introductions from the chair

Ky Hoare, local energy coordinator, Regen

14.15 Regen’s introduction to community-led energy efficiency

Ky Hoare, local energy coordinator, Regen

14.30 Introduction to energy advice work

Simon Kilshaw, Green Doctor Manager, Groundwork Yorkshire

14.55 Fuel poverty awareness

Simon Kilshaw, Green Doctor Manager, Groundwork Yorkshire

15.20 Tea break

15.30 Breakout surgeries run by Green Doctors

Two breakout groups to discuss delivering energy efficiency projects with Green Doctors

16.15 Breakout group feedback and Q&A

16.25 Feedback, summary and next steps

Ky Hoare, local energy coordinator, Regen

16.30 End
