| Speakers | |
|---|--|
|  | Mark Khan Head of Energy, National Grid |
|  | Katie Black Head of Energy, National Grid |
|  | Chris Clarke Head of Energy, National Grid |

An overview

On 27 November, we will be joined by industry leaders for our Renewable Futures conference, exhibition and Green Energy Awards at the Assembly Rooms in Bath. The event provides a fantastic insight into the future of our energy system and a celebration of the hard work over the past year.

This industry-leading event will feature a line up of experts and key policymakers analysing the disruptive innovations shaking up the energy market and examining the strategies used to create value in a rapidly changing market.

An opportunity

Renewable Futures 2019 can help you to:

- Position your company as a key player in the sector
- Get a head start on lead creation and business development opportunities by meeting director level delegates
- Showcase your latest innovative projects and business models to the industry
- Influence the future of the sector through direct engagement with decision makers
- Gain the latest insight from the cutting edge of the energy transition alongside policy makers, OEMs, investors and many more

70%+ Decision makers

Developers and investors

Policy makers and government representatives

Network and System Operators

Typically represented companies:

Renewable Futures Conference

There is a growing recognition that action to combat climate change must be taken in the next decade to avoid the worst effects of climate change.

Building on the themes in a series of upcoming Regen insight papers, this conference will be exploring how the energy industry can rise to the challenge of climate change, with sessions on;

We've got the power: re-energising investment in renewable electricity

Decarbonisation of heat: the biggest challenge

Transport: the revolution is coming

Energy efficiency: transforming the way we use energy

Making a difference: how communities, cities and regions can lead the low carbon revolution

Green Energy Awards

The Green Energy Awards dinner is a night of celebration and a chance to recognise the fantastic work that has been undertaken over the past year, in the journey towards a smart and sustainable energy system.

The night celebrates awards in the following categories:

Clean energy system disruptor

Clean energy pioneer

Clean energy scheme

Community energy initiative

Local energy leadership

The awards are also a great opportunity to entertain clients, network, reward team members.

Testimonials

Regen events always broaden my horizons and get me in a room with new faces, a new network.

Fluence

Absolutely brilliant conference and awards.

Bristol City Council

I'm always impressed by the quality of Regen communications, your level of knowledge and detail comes through in spades.

GJ Renewables

Renewable Futures and Green Energy Awards are a staple in our calendar, and always provides an excellent occasion to celebrate successes and meet new faces. We will definitely be returning next year.

GENeco

Benefits of sponsorship and exhibition spaces

Business Development

- Promote to and network with leading contacts from the smart energy industry looking to source solutions.
 - Delegates at Renewable Futures represent multiple sectors within the smart and sustainable industry from transport and infrastructure to digitalisation and smart grid.

Latest industry innovation and insight

- Place your company at the cutting edge of your sector with the latest insight discussed during our full day conference.
 - Hear from system disruptors and leading project developers explore how the energy industry, and energy users, can rise to the challenge of climate change.

Profile development and brand visibility

- Enhance your companies' profile amongst the UK's key industry leaders, stake holders and decision makers and market yourself at the forefront of this energy transition.
 - Increase brand awareness to a wider demographic within the energy sector and further afield.

Latest business models

- Engage with the latest business models in the industry and hear from financial leaders and investment directors on future investment structures that work.
 - Hear from policy makers and government representatives of the changing policy environment and what this will mean for our industry.
